## El Pasoans To Drill Well On Crawford Ranch

Form Corporation To Test  
Ground In New Mexico  
Near City.

In the belief that oil exists in the region of El Paso the Crawford Oil Company has been organized with a capital of \$100,000 to drill on the L. M. Crawford ranch in New Mexico, situated about 12 miles northwest of El Paso. The announcement was made by C. P. Crawford, son of L. M. Crawford, owner of the Crawford property, and E. P. Maxwell, treasurer. The company will be organized on the common law corporation plan, with 50 percent of the shares invested in the public.

The tract of land, according to C. P. Crawford, consists of 250 acres, for which his father paid \$100,000 several years ago, and which he owns in fee. The company will be organized on the common law corporation plan, with 50 percent of the shares invested in the public.

The tract of land, according to C. P. Crawford, consists of 250 acres, for which his father paid \$100,000 several years ago, and which he owns in fee. The company will be organized on the common law corporation plan, with 50 percent of the shares invested in the public.

## WELMAR SALES HEAD TO FIELD

E. R. Evans Leaves To Be  
Present at Drilling of  
Well at Ranger.

Organized by the rather unusual production happening in the vicinity of the holdings of the company be represented, five wells of an average production of 3000 barrels having come in in the last seven days. E. R. Evans, general sales manager of the Welmar Oil company, which has holdings in Ranger and Burk Burnett fields left Tuesday afternoon for Wichita Falls to get in close touch with the situation.

"The real oil excitement," said Mr. Evans Tuesday morning, "is about to begin. I have private advice indicating that within the next few days Ranger field will show a production unequalled in the history of oil in Texas."

Some of the recent data: The Crosby well, 2000 feet from our holdings came in Saturday with 2500 barrels; the Evans is now making 4000 barrels; 2500 feet northwest of the Crosby well is now making 1500 and increasing in production daily at a distance 2000 feet south of our land and these matters induce my trip.

Will Join Official. Mr. Evans will join E. F. Newlander, Jr., at Wichita Falls and immediately steps will be taken to start drilling. The Crosby well, built on block 72, near the noted Burk-Waggoner and Golden Cycle wells.

L. L. Newlander, vice president and general manager of the company, has taken charge of the Welmar Oil company's offices in the Two Republics building here until Mr. Evans returns. The annual meeting of the company takes place in Houston Tuesday.

MORAN REGION ROOMS. Reports from Brookhaven, Tex., are deep drilling in that district has extended to within ten miles of Moran in Shackelford county. Quite a number of locations have been made in the territory between those two towns. The Gulf Production company has recently brought in several cases of material for its operations nearer to Moran. The Central Oil and Gas company is about starting its first well on the Pite farm two miles north of Moran and is talking of building a refinery there.

CONTRACT FOR SIX WELLS. The Winter Oil and Gas company has just made a contract for the drilling of the sixth well around the town of Winter, Tex. This last well is to be drilled on the Post-McNeill block, six miles west of Winter, drilling to be commenced in 30 days. This company has made three contracts in the last six months. Drilling is going on under the first contract, a depth of over 100 feet having been attained. Two other drills are up and the pit ready for the fourth.

STOMACH TORTURE GONE; FIRST SLEEP IN THREE MONTHS. Mr. Heinrichs Was Ready to Give Up, Then He Found How to Regain Health.

"The first sleep I had had in three months was on the second night after I began using Milks Emulsion. I had had a bad case of stomach trouble and constipation for years and was unable to give up. I was troubled with gas, indigestion, flat after eating, rawness sensation and cramps in the stomach. Milks Emulsion was a God-send to me, and I want everyone to know about this medicine. It will cure every case of indigestion, constipation, flatulence, gas, and all other stomach troubles. It is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and cathartics. It promotes appetite and quickly gives the digestive organs in shape to assimilate food. As a builder of flesh and strength Milks Emulsion is strongly recommended to run down nervous people, and it has produced amazing results in many cases of tuberculosis of the lungs. Chronic stomach trouble and constipation are promptly relieved—usually in one day. This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children. No matter how severe your case, you are urged to try MILK'S Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.25 per bottle. The Milks Emulsion Co., New York, N.Y. Sold everywhere guaranteed by all druggists.—Adv.
